We CREATE TECHNICIANS and provide ALL on the job training!

Military Veterans Strongly Encouraged to Apply

Company Overview

Founded in 1946, Arbonite is a growing, widely recognized coating and rubber lining applicator. With a team that possesses over 210 years of cumulative technician experience, we are one of the leading coating and lining applicators in North America, servicing customers in the following industries: power generation, water and waste treatment, chemical processing and manufacturing, metal plating, pharmaceutical manufacturing, oil and gas, liquid bulk transportation, milling and mining and railroad.

Job Overview

At Arbonite we pride ourselves on building from the ground up and protecting many crucial industries from the threat of corrosion. If you are mechanically savvy, have worked with a spray gun or done abrasive blasting in your past, we want to talk to you.

Roles and Responsibilities

- Successfully complete job-specific training and master the role of abrasive blasting
- Including surface preparation through abrasive blasting
- Interpreting drawings
- Masking and protecting surfaces as necessary
- Operate abrasive blast equipment efficiently and safely
- Material handling
