Military Veterans Strongly Encouraged to Apply

Company Overview

Founded in 1946, Arbonite is a growing, widely recognized coating and rubber lining applicator. With a team that possesses over 210 years of cumulative technician experience, we are one of the leading coating and lining applicators in North America, servicing customers in the following industries: power generation, water and waste treatment, chemical processing and manufacturing, metal plating, pharmaceutical manufacturing, oil and gas, liquid bulk transportation, milling and mining and railroad.

Job Overview

Arbonite is looking to hire Production Technicians to learn our trade and keep the country's most crucial businesses running. Tasks include metal surface preparation, reading drawings, masking, working with hand tools and power tools, rubber lining, and acquiring skills to apply the following industrial coatings: polyurethane, spray applied coatings, epoxy & PVC.

Roles and Responsibilities

- Successfully complete job-specific training
- Become familiar with surface preparation through gaining experience with abrasive blasting, reading drawings, masking surfaces, and more
- Apply specified coatings and linings to the interior/exterior of customer equipment and parts
- Cross-train in other departments to learn various applications
- Work with solvent-borne materials such as cements, rubber sheet, inorganic zincs, epoxies, polyurethanes, and more
- Basic knowledge of hand tools for use when grinding, cutting material, trimming, sanding, lining removals, etc.
- Learn both airless and conventional spray systems and maintenance of all parts in shop and field settings
- Learn rubber lining techniques and how to use required tooling
- Ability to troubleshoot equipment as well as coating and lining systems
- Perform quality assurance, track, and record data

Qualifications and Educational Requirements

- High School Diploma or educational equivalent (GED) preferred
- Experience using power tools is preferred
- Must work well in a team environment, as well as independently
- Must be professional and have a good work ethic
- Must be well-organized and have good housekeeping skills
- Possess good problem-solving skills
- Forklift experience preferred, but not required
- Ability to meet or exceed the Company's attendance and punctuality standards

- Reliable transportation is required

Physical Demands

- Some lifting required (5-50 lbs.)
- Ability to climb ladders
- Ability to work in confined spaces without claustrophobia
- Bending at waist, sitting, kneeling, laying horizontally, climbing, standing for prolonged periods and walking as job requires

Environmental Conditions

- Exposure to chemicals and solvents
- Extreme heat or cold
- Noise level, which may at times require hearing protection (earplugs or other means)
- Heights
- Electricity
